**Date:** Tuesday, November 10, 2009      **Time:** 5:00 – Tour      **Price:** FREE - Members  
**Where:** Berry Plastics Plant      6:30 – Dinner      **\$20.00** – Non-Member  
 RiRa's – Downtown

**Message from your Chapter President**

Fellow ASHRAE Members,

I would like to thank all of those who attended our October meeting on Variable Refrigerant Technology by Mr. Matt Bennett. There was plenty of lively discussion at the meeting about this exciting technology.

This month's meeting is sure to be a great one. We'll be touring the new expansion at Berry Plastics. I'd like to thank Berry Plastics, Waller Clements, SMACNA and Industrial Contractors for making this tour possible.

Also, don't forget to mark your calendars for the March 9 evening meeting. Former ASHRAE Society President and Distinguished Lecturer, William Harrison, will give a presentation on sustainability.

See you at Berry Plastics!

Respectfully,  
 Keith Cecil, P.E.  
 Evansville Chapter President.

ASHRAE's  
**2010 Winter Conference**  
**Orlando, FL**  
**January 23-27, 2010**

If you can't stand the heat ... manage the humidity. Join us for the 2010 Winter Conference in Orlando with a technical program focused on humidity and sustainable indoor environment.

**Free Energy Guidance**

To promote building energy efficiency, ASHRAE and its partners are making the Advanced Energy Design Guides available for free download (PDF). The guides offer designers and contractors the tools needed for achieving a 30% energy savings compared to buildings that meet the minimum requirements of Standard 90.1-1999. **Energy guidance focused on highway lodging is now available!**

**Build your credentials with ASHRAE**

Have you considered getting certified as a Healthcare Facility Design Professional or a High-Performance Building Design Professional? Maybe you and your clients would benefit from a certified Operations & Performance or Commissioning Process Management Professional. If so, then you need to check out ASHRAE's certification programs at <http://www.ashrae.org/certification/>.

ASHRAE's certification programs are developed by industry practitioners who understand the knowledge and experience that are expected for superior building design and system operation. Earning an ASHRAE certification assures employers and clients that the certificant has mastered the body of knowledge associated with the respective field. An ASHRAE certification also serves as a springboard for continued professional development.

**November Technical Presentation – On-Site Tour – Berry Plastics Headquarters**

This month the Evansville Chapter of ASHRAE will be having a joint Berry Plastics Tour with Evansville SMACNA. We will be touring the new facilities and headquarters of Berry Plastics. The building is not yet complete, but the HVAC system is installed.

We are to meet at Industrial Contractors, Inc trailers on First Avenue (east side of 1<sup>st</sup> Ave and just south of Illinois St.) at 5:00 PM CST. Consider parking along Illinois St. since ICI crews should be off-site. Please remember to bring your own hard hats and safety glasses; ICI will have limited supplies available for our use.

No cameras will be allowed.

After a 1 – 1 ½ hour tour, we will all go to RiRa's for dinner and social networking.
